### Stop The Harassment

Did you know that 4400 people lose their lives due to bullying? Well hoping that this essay will persuade you stand up if you see someone being bullied. My topic is Bullying. I believe that bullying is a issue is in my community, Neighborhood, State I think that bullying take place mostly in school mostly because of the cloths or brand of sneakers that someone is wearing. To me bullying is not a joke I think that because people lose their lives because they don't know what to do about bullying. The real definition of a bully is someone using superior strength or influence to intimidate someone typically to force him or her to do what one want. There are different types of bullying such as verbal bullying (involves hitting ,shoving,pushing and other kinds of force), Social bullying (involves using relationships to hurt someone) cyber bullying ( happens over cellphones or the internet). My goal for this project is to raise an awareness of the impact of bullying in people emotions and school. What I would like to do is make a assemble and have someone that have been bullied. From this project I want people to be able to finish reading my project and say" Wow I never knew that so many people was getting bullied in my community". I decided to chose this topic because I don't like to see kids being bullied. Another reason I chose this topic is because I know people that have been bullied and they committed suicide because they couldn't take the bullying. My global context is Identities and Relationship. My topic relates to this global context because bullying can bother people physical, mental social and spiritual and health. The question that I will be answering is why do

people make fun of people because I what they were or because of how they talk bullying is not ok and I don't like it at all.
